## Lotus Flower Trust Reaches £1 Million Milestone!

I am delighted to share with you that - with your help - Lotus Flower Trust has raised £1 million pounds! Over the last seven years, the Trust has funded the construction of 35 schools, homes and skills centres for more than 3,000 destitute children and women in very remote areas of India. Of the funds received, a massive 89% has been spent directly on the projects, with overheads kept to an absolute minimum.

**Without your help, we would not have been able to achieve this amazing milestone.**

On behalf of the Trustees of Lotus Flower, our volunteers but most importantly the children who have benefitted from your support, I would like to say a huge 'thank you' for your generous contribution to our work.

On this page are a few photographs of the children and completed projects; many more of the children and women who have benefitted from your generosity and all our projects are featured on our website [www.lotusflowertrust.org](http://www.lotusflowertrust.org).

Reaching £1 million only reaffirms our commitment to strive to help more children in need. Therefore I hope you can visit our projects [in need of funding](#) page on our website, in case you are ever able to help us again.

**Thank you!**

Lotus Flower Trust.
